

### ADCRYL™ AP 1062 Acrylic Solvent Pressure Sensitive Adhesive

A premium quality, medium peel PSA. This adhesive has outstanding cohesive strength and is ideally suited for linerless filmic adhesive tapes eliminating the need for release coat or liner. The properly cured adhesive does not transfer when the finished tape roll is unrolled.

#### Technical Data Sheet

|  |  |
|--|--|
| <b>Chemical Composition</b>                          | Vinyl Acrylic Co Polymer                           |
| <b>Physical Appearance</b>                           | Hazy Transparent Viscous Liquid                    |
| <b>Solid Content</b>                                 | 36 ± 2 %   |
| <b>Viscosity at 25°C by RVD11+ Sp. No. 5 / 10rpm</b> | 40 to 60 poise                                     |
| <b>Peel Adhesion at 33 gsm</b>                       | 1.1 kgs ( on polyester film)                       |
| <b>Pigment Compatibility</b>                         | Yes  |
| <b>Diluents</b>                                      | Ethyl Acetate / Toluene                            |
| <b>Application Method</b>                            | Roller (Direct or Reverse)                         |
| <b>Type</b>  | Medium Aggressive Thermoplastic                    |
| <b>Recommended Uses</b>                              | Coloured Self Adhesive Tapes, Linerless tapes, etc |
| <b>Storage Life</b>                                  | 5 to 6 months (under ideal storage conditions)     |
| <b>Packing</b>                                       | 200 Kgs.   |
