WELCOME TO ADVANCE POLYMERS

Advance Polymers, established in the year 1995, is one of the dominant manufacturers of solvent-based specialty Pressure Sensitive Adhesives (PSA's) in the ever-expanding conversion segment. Its products find wide applications in the manufacture of adhesive tapes, labels, decals, graphics, laminations, and holograms. The range of PSA's the company manufactures at present, includes solvent-based Rubber and Acrylic, all expertly formulated to the individual requirements of the converting industry.

Today we are widely recognized as a reliable manufacturer and supplier and have developed good relationships with all adhesive coated & tape industries, both in India and abroad. We are known for manufacturing consistently superior products, quick deliveries, proven technical capability and experience. The company is ISO 9001:2015 certified. Working together, setting goals and solving problems; that's the definition of a partner. It's a formula that's worked well from the beginning, works well now, and we are sticking to it. With every product perfected, another new challenge unfolds in front of us. We love challenges!

Today we are widely recognized as a reliable manufacturer and supplier and have developed good relationships with all adhesive coated & tape industries, both at India and abroad. We are known for with consistently superior products, quick deliveries, proven technical capability and experience. The company is ISO 9001:2015 certified with the first certificate obtained in 2007. Working together, setting goals and solving problems; that's the definition of a partner. It's a formula that's worked well from the beginning, works well now, and we are sticking to it. With every product perfected, another new challenge unfolds in front of us. We love challenges !

ABOUT CEO

MR. DHANESH METRANI,

is the CEO and founder of Advance Polymers since 1995. He has been actively involved in promotion and development of the company for more than two decades and is one of the leading experts to formulate and manufacture Solvent Acrylic Pressure Sensitive Adhesives.

He is fully conversant with all aspects of manufacturing and has rich experience in adhesive and adhesive tape field, even prior to the establishment of this firm. The promoter is aptly supported with committed sales and production team. The raw materials that the company consumes include a combination of imported and indigenous sources, all easily available.

Mr. Metrani is an ex-member of the Round Table Foundation India, the leading non-political and non-sectarian charitable organisation. It aims to promote service, education for poor children (BPL), fellowship and goodwill in National and International affairs. It believes that true freedom for an individual comes only through education. Over the last few years, Round Tables in India have really put in a lot of effort to provide infrastructure in schools. Mr. Metrani has been associated with the organisation since 2000 and has actively participated in various social programmes. He is also very much inclined towards safeguarding the environment, which reflects at the Factory premises, which is surrounded by greenery. Under his leadership, the company has become a widely recognized name in the segment of Pressure Sensitive Adhesives, Industrial Solvent based Adhesives, Pressure Sensitive Adhesives Tapes.

ABOUT INFRASTRUCTURE

The company manufactures its adhesives in an area that measures 18000 sq ft and is well equipped with S.S Reactors, Storage Tanks, High Shear Mixers , Disintegrators and other special equipments, all duly backed up with a well equipped laboratory. **The present production volumes are 500 MT per month. Our present infrastructure can process 1000 MT per month and with additional investments, we can reach 2000 MT. We have ample scope for further expansion.**

In addition to our manufacturing unit, we also have a capacious warehouse and a fully equipped quality lab to facilitate in the testing and storage of our range of products. Our packaging department uses the best packing materials to pack the products and deliver the same to our clients without any damage.

ABOUT ENVIRONMENT

Respect for the environment is central to our approach to sustainable development. We take our environmental responsibilities very seriously. We believe that a demonstrable and continually evolving environmental policy is an important part of our business.

We have a number of initiatives in operation to ensure that both the firm as a whole and individual employees strive to reduce the environmental impact of our business activity. Our dedicated green team promotes and maintains the green surrounding on an ongoing basis. The Management Board is involved in all of the team's activities.

A few examples of our many initiatives regarding Environmental Consideration are summarised below.

No Effluents

Rain Water Harvesting

OUR PRODUCTS

Solvent Acrylic PSA

- High Solids & High Performance Solvent Acrylic PSA
- Flame Retardant – Non Halogenated Solvent Acrylic PSA
- Non-Flammable Solvent Acrylic PSA
- High Peel Strength Solvent Acrylic PSA
- Non-Tacky – Primer
- Low Peel, High tack & High Shear Strength Solvent Acrylic PSA – Removable
- Low Peel, Low tack Solvent Acrylic PSA – Removable
- Low Surface Energy Solvent Acrylic PSA
- High Peel, High Tack, High Shear Solvent Acrylic PSA
- High Tack & Permanent Solvent Acrylic PSA
- Pigment Compatible Solvent Acrylic PSA
- Weathering & UV Resistance Solvent Acrylic PSA
- Carpet / Rough Surfaces Lamination Solvent Acrylic PSA
- General purpose Solvent Acrylic PSA
- Medical Adhesive Solvent Acrylic PSA
- PVC Lamination Solvent Acrylic PSA

Solvent Rubber PSA

- High Solids & High Performance Solvent Rubber PSA
- Low Peel, Low tack Solvent Rubber PSA – Removable /Application Tape
- High Peel, High tack Solvent Rubber PSA – Removable
- Solvent Rubber PSA for insulation Tape

Hardener

- Advance Hardener
- Advance Hardener 002

Release Coat

- Release Coat AP 10S

INNOVATIONS

Advance Polymers' absolute commitment to research and development has seen it meet the changing and demanding needs of the converting industry. We have been constantly striving to redefine existing products and to develop newer products. With every product perfected, a new area unfolds, inviting us to take up new challenges with continued zeal. With our well-equipped laboratory and motivated R & D team who follow a culture of innovation is deeply ingrained into the system. Our innovation process goes through **four main stages – innovation, research, development and product launch**. Our R & D team is now working on

1. Solvent Rubber Based PSA

- High Performance PSA with 15 – 20 N/ inch peel strength
- Easy Removable PSA with 10N/inch peel strength
- Easy Removable Rubber PSA with Low peel strength with low tack
- Low peel strength with high tack PSA
- High Solid (50/70%) Rubber PSA for fabric tape

2. Hotmelt Adhesive Pressure Sensitive Adhesive

- Synthetic Rubber based tacky PSA
- Non-Tacky PSA

3. Silicone Pressure Sensitive Adhesive

4. Synthetic Rubber Grafted Lamination Adhesives.

5. Hybrid Pressure Sensitive Adhesives, based on Acrylic & Rubber.

6. UV curable Pressure Sensitive Adhesives.

7. Poly Urethane based lamination adhesive

8. Rat Trap Adhesive

9. Roof Sealing Sealant

10. PVC Solvent Cement

ABOUT QUALITY

Advance Polymers quality is amongst the best in the world. It uses the best raw materials to produce adhesives that are subjected to stringent quality standards. Every batch of finished product undergoes strict down the line process control & monitoring including actual coating trials on polyester film.

Advance Polymers commits itself to achieve Total Customer Satisfaction, Developing, Manufacturing and Supplying Adhesives, meeting customer requirements of Quality, Delivery and Consistency.

Advance Polymers shall focus on providing customized solutions to our customers, through Innovative Formulations and Processes, Capacity Expansions, Training of Human Resources to develop into an Organization known for ' Reliability ' in the field of Adhesives Manufacturing.

At Advance Polymers, every effort is made to satisfy clients – before, during and after sales. Its commitment to quality service transforms its relationship with people into an uncommon bond which is the fulcrum of its every success.

CONTACT US

We invite business proposals from financially sound distributors or marketing representatives to join us and grow with us. We assure you of a satisfying relationship.
